To qualify for the Psychology Transfer Admissions Pathway, an Arizona Western College student enrolled in the Associate of Arts in Psychology program must:

- Submit an undergraduate application for admission form to University of Arizona during the university’s application filing period for acceptance, at least one semester in advance of transfer, and otherwise qualify for admission.
- Satisfy a department writing requirement if that student did not earn a grade of “B” or better in 2nd semester English Composition.
- Satisfactorily complete all Arizona Western College graduation requirements for the Associate of Arts in Psychology prior to the date the student intends to transfer to the university; otherwise, transcripts will be evaluated on a course-by-course basis.
- Check the current UA Schedule of Classes to confirm course availability and class prerequisites because the Psychology core courses may have prerequisite requirements and may not be offered in both Fall and Spring semesters at the University.

The Bachelor of Arts Psychology Program at the University of Arizona South is designed to serve those students who have completed Associate of Art degrees at Arizona Western College.
